Course Logistics

Nathanaël Carraz Rakotonirina

Mathématiques Informatique et Statistique Appliquées (MISA)
Université d'Antananarivo

Coursework

Prerequisites

Course objectives

Coursework

You will be evaluated based on your scores on:

- Assignments (standard, special, marathon)
- Quizzes
- Projects (individual, in groups)
- Interviews
- Final project

We have a grading policy in addition to the honor code on the website.

- **Submission:** Assignments are submitted via Google Classroom. Late submission penalty is -4 points every 24 hours. You are allowed to miss deadlines without penalty up to 3 times.
- **AI use policy:** You are allowed to use AI models, but you must disclose it.
- **Collaboration and references:** Assignments are individual. You mut provide the references to online materials adapted or used in your assignments.
